

EMERGENCY

Emergency Response for New Comers Syrian and Lebanese families

The program aims to respond to the emergency caused by the Syrian crisis through the immediate assistance of the Lebanese community and Syrian refugees.

		
COUNTRY Lebanon	BENEFICIARIES 14.600	METHOD Assistance

FUNDING AGENCIES	ECHO - European Commission for Humanitarian Aid WFO - United Nations World Food Program MAE - Italian Ministry of Foreign Affairs Italian Cooperation
STARTING DATE	November 2013
IMPLEMENTATION PERIOD	10 Months
DESCRIPTION	The program aims to respond to the emergency caused by the Syrian crisis through the immediate assistance of the Lebanese community and Syrian refugees. The target are the New Comers, those families who still can not register with the 'UNCHR since settled in the country for less than a month. These people are in need of immediate care, and we proceeded by distributing emergency kits and Winterization kit to more than 14,000 people. We have provided tanks and cisterns to ensure water availability and installed 490 latrines to allow adequate sanitation and decent to the entire affected population. To improve the general conditions of hygiene, we have also to provide the area of baskets and bins for waste collection and organized a campaign to raise awareness of good hygiene practices to prevent the risk of diseases and epidemics.
OBJECTIVES	Ensure prompt response to basic needs of Syrian and Lebanese families fled from the conflict in Syria. The composition of GVC Non Food Item packages, provided through the project - New Comers emergency KIT and Winterization KIT- were discussed and agreed with UN Non Food Item working group (NFI) and with UNCHR Winterization Task Force in order to be sure that all interventions carried out by actors involved in the Syrian crisis response in Lebanon are harmonized.
ACTIVITIES	<ul style="list-style-type: none"> • One month Emergency Kits were distributed to 2.400 New Comers families (9.900 individuals): the kit is composed of Blanket, Mattresses, Kitchen set, Hygiene kit, Baby kit for 1 child under 2 years old. • 1.500 Winterization kits were distributed to 1.829 New Comers families (7.500 individuals): the kit is composed of 1 diesel stove and 1 month fuel voucher (100lt). • 750 shelter kits were distributed to families living in informal tented settlement or unfinished building that are in need to be weatherproofed. • Water analysis campaign: quality and quantity of the water sources were biologically and chemically tested. • 475 water tanks were distributed, 1900 jerry cans, 190 water filters and improvement of 30 internal water distribution schemes. • 490 Emergency latrines were installed and hand washing facilities. • Distribution of 1 refuse containers (100 lit/ for 10 HH), 1 HH garbage bins, 100 wheelbarrows and construction of 30 concrete burning platforms in informal tented settlements. • Hygiene Promotion Campaign: it focused on personal hygiene (incl. hand washing), safe water chain, diarrhoea management, food hygiene, safe waste management and safe gray water disposal. The aim of this activity is to prevent the outbreak of diseases and improve the sanitation conditions of refugees in the informal tented settlements. • 84.700 litres of fuel for motor pumps were distributed to 200 families from the hosting community.
