STARTING DATE	July 2011
IMPLEMENTATION PERIOD	6 months
DESCRIPTION	The action targeted 142 families of 10 communities living in the Massafer Yatta area and the owners of the water infrastructure.
OBJECTIVES	The project allowed the installation of a transmission line and the creation of new supply points along the streets, thus facilitating water supply by the Massafer Yatta community. The action reduced the time and cost for water provision and transportation. The project also improved the streets and rehabilitated the damaged reservoirs.
ACTIVITIES	<ul style="list-style-type: none"> • Construction of a transmission line and suppli points in the Massfer Yatta area; • Recovering of damaged reservoirs; • Construction of a tank to take water; • Reconstruction of streets where damaged.
