900

METHOD
Capacity Building / Training

LOCAL PARTNERS	Pala Wassokoti Livestock and Agricultural Association.
FUNDING AGENCIES	Italian Ministry of Foreign Affairs.
STARTING DATE	May 2009
IMPLEMENTATION PERIOD	36 months
DESCRIPTION	The project worked in benefit of 150 families, and indirectly of the 16,000 inhabitants of the local communities living in areas immediately surrounding the forest, who survive through subsistence farming, by promoting a sustainable use of natural forest resources and by supporting the local agricultural production.
OBJECTIVES	This project aimed to increase and improve the sustainable use of ecosystems and to discourage destructive use of natural forest resources in the Naamacha region.
ACTIVITIES	<ul style="list-style-type: none"> • Improvement of knowledge and increase of number of beneficiaries originally predicted through a multi-sectoral management of forests and fruit production. • Activation of a high efficiency area in favor of the association, producing: essences, aloe vera gel, and nectars. • Improvement of the nursery production of fruit trees necessary for the production of essences in the Namaancha area.
