CLARIFICATIONS AND ANSWERS TO TENDERERS’ QUERIES

Reference: GVC/LEB/MAD/2020/OLT05

CONTRACT TITLE: CONSTRUCTION AND UPGRADE OF JABAL AKROUM WATER SUPPLY SYSTEM

Question 1: Clarifications on origin of materials/equipment. Can valves and accessories be bought from Turkey?

Answer 1: The goods originally from Turkey are eligible as per the European Commission rules (The origin of goods has no importance only if the goods are used to perform the work contract as part of the works. (European Union’s rules about origin of goods: http://ec.europa.eu/europeaid/prag/document.do?nodeNumber=2.3.5)

Question 2: What is the material of the Pump impeller?

Answer 2: Refer Volume 3.1 – Technical Specification, Article 304.1.1 which clearly states that the impeller for Drinking Water should be Zinc Free Bronze (max 3% Zinc)

Question 3: Water meter Boxes dimensions (# 6.0200) are not clear since there is a difference between the BOQ and the design’s dimensions.

Answer 3: Sizes are to be intended as indicative of the number of water meters to be fit in each box. Bidders shall amend page 34/36 of Part B Bill of Quantities by the annexed page and shall quote according to the capacity of each box, as per the design drawings and the following detail:

- item 6.0201 - quote for the “Supply of Water meter box steel wall mounted able to host 1 water meter”

- item 6.0202 - quote for the “Supply of Water meter box steel wall mounted able to host 2 water meters”

Question 4: Is the tender guarantee mandatory?

Answer 4: The tender guarantee is mandatory. Failing to provide this guarantee with the dossier will result in the exclusion of the procedure.
