STARTING DATE	August 2014
IMPLEMENTATION PERIOD	15 months
DESCRIPTION	In the context of extreme vulnerability of the rural families living in the Central Department, it is fundamental to reinforce the natural resources management capabilities of local communities. The project aims to strengthen the families' capabilities to face the consequences of food and nutritional insecurity, by a wider understanding the needs and potential of the territory and the action framework in periods of crisis.
OBJECTIVES	The project contributes to improving the food and nutrition security of rural families living in the Central Department, the most vulnerable after the recent events, through the reinforcement of the local community's resilience capabilities.
ACTIVITIES	<ul style="list-style-type: none"> • Training on agro-ecological techniques; • Training and technical assistance in the implementation of practices to preserve resources, notably soil and water; • Seeds distribution; • Inter-institutional coordination to create models and best practices to reinforce the local community's resilience capabilities and the evaluation of the food security situation through an inclusive methodology.
