| LOCAL PARTNERS | ACTAF - Cuban Association of Agronomists and Forest Technicians |
| FUNDING AGENCIES | Japanese Embassy |
| STARTING DATE | February 2010 |
| IMPLEMENTATION PERIOD | 18 months |
| DESCRIPTION | The project involved the members of productive cooperatives and their families, and the vulnerable sectors of the population such as children, the elderly, and pregnant women, who will have more access to agricultural products. |
| OBJECTIVES | The project alleviated the effects of hurricanes Gustav and Ike on the population of the Guira de Melena municipality, recovering and improving productive capacities and support the production of the UBPCs (Base Unit for Cooperative Production) "Héroes de Bolivia" and "Héroes de Yaguajay," in part through the creation of a training program for producers on the prevention of effects on agriculture deriving from climate change. |
| ACTIVITIES | <ul style="list-style-type: none"> • Architectural restructuring of the Base Units for Cooperative Production (kitchens, bathrooms, door and window supply); • Training for members of the two beneficiary cooperatives on the impact of climate change on agriculture and possible solutions for minimizing this impact; • Supply of didactic modules and informational materials to spread knowledge of the technical issues covered; • Training on the sustainable production of food products and the use of alternative energy sources. |
