STARTING DATE	October 2010
IMPLEMENTATION PERIOD	12 months
DESCRIPTION	This project involved trainers who participated in various training modules held by experts in the field to the technical personnel of the Center for Promotion and Diffusion of Sustainable Agriculture. The entire rural population of the municipality benefited from this project action.
OBJECTIVES	This project contributed to food security and increased agricultural production on an ecological basis for the cooperatives of the Havana Province, and guaranteed the agricultural cooperatives in the Guira de Melena and Melena del Sur Municipalities better access to training services in ecologically sustainable agriculture. It also aims to reinforce the Cuban cooperative tradition.
ACTIVITIES	<ul style="list-style-type: none"> • Supply of materials for training and explanatory activity organization to the CPDAS center and the Municipal Training Center Empresa Agropecuaria of Melena del Sur; • Creation of training packages aimed at expanding the technical knowledge of cooperative members through a strategy which stems from their own needs and potential; • Reinforcement of the cooperative tradition on local and international levels.
